## Contract let on sewer job

A \$1.5 million contract with C.O. Osborn Contracting Co., Inc., of Birmingham, Ala., for construction of Bay St. Louis' sewerage system was signed last Thursday by City Commission Council.

The formal work order on the job is to be issued as soon as final approval of the pact is received from the U.S. Public Health Service and the Housing and Home Finance Administration which are assisting with financing for the project. The \$1,599,828.45 contract was forwarded those agencies Friday.

Negotiations have not yet been concluded with George Consolidated, Inc., of New Orleans for the water system and oxidation pond. Commissioner of Utilities J. Cyril Glover said he hopes officials from that firm will come in shortly. Also pending is the contract with Carliss Well Supply of Memphis.

Signing of the job with Osborn came after Glover and Mayor John A. Scalfie flew to Atlanta, Ga., last Wednesday for further consultation with the federal agencies on trimming costs to meet funds available. The utility chief said additional change orders are to be executed with Osborn to further reduce the figure. The city

already has removed specifications for patching streets torn up in laying the sewers.

The Osborn company has said it will start sending in crews right away to line up construction since only 365 working days are provided for completion, Glover said he ex-

pects four or five crews will handle the work.

All water meter bids were rejected earlier this month and that portion readvertised with the second set of bids due next Thursday. However, the health service agreed not to delay

## School budget up, for teacher's pay

A \$47,000 increase over 1964-65 is contained in the budget for the coming year adopted last Thursday night by trustees of the Bay St. Louis Municipal Separate School District.

The statement of proposed expenditures totaling \$553,692 will be submitted to City Commission Council for approval. Council imposes the millage necessary to raise the required revenue from local sources and school board members expressed hope that the increased assessment may be sufficient to provide the money without any hike in the levy. Currently the city schools get 24 1/2 mills.

Actually the funds sought from local sources are up only \$16,000, the total being \$222,939. Other increases are \$22,000 from state minimum foundation program funds, \$8,000 tuition from county students, and \$1,000 from national defense education funds.

Superintendent J.D. McCullough explained that the increase is mainly attributable to teachers' salaries. Seven additional instructors have been hired to meet the growth in pupil population. Budgeted for instructional salaries is \$412,700.

The city system started out last year with a budget of \$502,000 and subsequently amended it to \$506,000, the superintendent reported.

Besides revenue from local sources the budget contemplates \$7,130 from poll taxes, \$251,361 from per capita and minimum program, \$4,223 in vocational money, \$37,500 from homestead exemptions, \$2,539 from NDEA funds and \$28,000 in tuition for education of county students at \$100 per pupil.

The expenditures in addition to instruction are \$22,860 for administration, \$10,707 for transportation, \$31,415 for operation of plant, \$25,600 for maintenance, \$33,710 for fixed charges, \$6,800 for auxiliary services, \$5,500 for capital outlay and \$4,400 for sundry debt service.

Flicker filming

here maybe

It's all supposed to be a big secret but the whole town's talking about the prospect of a movie being filmed in Bay St. Louis this fall.

A man who declined to identify himself or the company he represents, reached by telephone at the Chamber of Commerce office Wednesday, said it was premature to release any information until "all the papers have been filed." He added he had just checked with his superiors in California.

However, informed sources report the building owned by August Rauxer on Third Street, just south of the ice house, is to be the locale for the film if present plans materialize, a railroad incline in Waveland will be used for one scene and that actress Nathalie Wood will be one of the stars. Ann Baxter is mentioned as another star.

Arrangements are being made to quarter the principals at a Biloxi hotel, it is understood. Word as to the identity of the leading man has not yet reached the Echo, most of the sources of the information being male.

## Bakery leveled in blaze

Gold Medal Bakery, established at Washington and Hancock Streets in 1915, was destroyed by fire shortly after daybreak Sunday.

Mitchell Kachler, owner, said he was alerted to the blaze when a customer reported smoke coming through the roof. Going into the brightly lit baking area, he discovered the trouble through a crack in the chimney and called to the sales girl, Rhonda Asher, to phone the fire department.

Fire Chief Water Sancier and Kachler estimated the loss at \$60,000 and the owner is now negotiating for equipment to rebuild the installation on its present site. Insurance covered only a minor portion of the complete loss.

Kachler, who bought Gold Medal in Pass Christian from his brother in 1948, acquired the old Sanitary Bakery here from Mrs. Alfred Vassalli in 1954 and consolidated his operation here. Its trade area extended from Clermont Harbor to the outskirts of Biloxi and when automated equipment was installed four years ago the business was featured in Bakers Magazine as the only streamlined manufacturer of French bread in Mississippi.

The alarm came in at 5:15 a.m. Sunday and the Bay firemen arrived at the scene in five minutes. Waveland's two units responded at 5:30 a.m. and helped stop the flames from spreading to the nearby frame houses. Since all walls of the

## A&I barrier looms anew as zoning talk revived

Inability to secure financial aid from the Mississippi Agricultural and Industrial Board stymied the board of supervisors again Monday in its renewed attempt to undertake a comprehensive land use

plan for Hancock County. The problem came up when Louis Bisso of Planning Services, Inc., of New Orleans, city planning consultant, called in for advice on how the county could govern the

use of trailer parks. Residents in the area from Felicity Street to Joe's Bayou and the Bay of St. Louis had petitioned the previous week for restrictions on a proposed 20-trailer development off Engman Avenue. Bisso told the supervisors the sub-division regulations he prepared in early 1964 (but never adopted by the board) should cover the health and sanitation features. And he concurred with board attorney Lucien M. Cox that a comprehensive land use plan, including areas for trailers, industry, multiple family housing, etc., was the next and best step.

Cost of such a study would run about \$30,000 to be paid over two years, Bisso estimated. Normally the federal government matches this work on a two-thirds basis and Hancock County's application was forwarded shortly after Bisso finished his sub-division proposals. The application must be transmitted from the A&I board to the federal Housing and Home Finance Administration.

To date the county has not

up to \$1.5 million to finance the project unless 20 percent of the qualified voters of the county petition by Aug. 23 for a referendum on the question.

Objection to the bond proposal was raised this Monday by R.G. Hubbard, Jr., of Beat 5, president of the board, who sought to change his affirmative vote of last week on the ground he had been misinformed as to the necessary millage.

However, the board's attorney, Lucien M. Cox, advised that Hubbard could not retract his vote on action previously approved. Hubbard then asked that his opposition be recorded in the minutes.

The new estimate of the millage required to amortize a \$1.5 million, 25-year bond is \$2.50 on the basis of a \$20 million assessment. Hancock is expected to complete a \$20 million assessment this year.

may not get anything under the local and private bill enacted at the recent session of the state legislature on dividing up the old road and bridge bond fund. Besides splitting some \$90,000 among the five supervisory beats, it had been planned to allocate \$30,000 to the general fund for the Courthouse. However it appears there is only \$93,000 in this fund rather than \$133,000.

Hubbard suggested that the

three members of the House Committee on Science and Astronautics conferred with officials of NASA and General Electric Co., prime support contractor, on a visit to Mississippi Test Facility Sunday.

Arriving from Daytona Beach, Fla., where they viewed GE's Apollo support department were Reps. Olin S. Teague, (D-Tex.), Robert R. Casey (D-Tex.) and Emilio Q. Daddario (D-Conn.), accompanied by Richard L. Callaghan, special assistant to NASA administrator James E. Webb, and Harry Le Vina, Jr., and Dave Cochran of GE's defense program's division. The Congressmen also are members of the subcommittee on manned spaceflight.

(Cont. on Page 7.)

Five beats kick back in their \$18,000 share of that fund for the Courthouse to reduce the millage for the building and Dolph Kellar of Beat 2 urged a discussion to cut the new Courthouse plans to a minimum, providing for additions later. Both Kellar and Charles LeVinghouse of Beat 3 indicated they also viewed the matter in another light with 2.5 mills required for financing.

**FARMER IN THE DELL** - Eighty-three Hancock County pre-school children are enrolled in Operation Headstart currently underway at Kila Annunciation School. Learning skills needed for first grade activities, children practice table manners, health habits, and courtesy, and partake in simple dramatics, story telling and group games. ## Farm tractors to wear new safety shield

Luminous safety emblems, visible at a distance of one-sixth of a mile, may become compulsory fixtures on all farm tractors, trailers and other farm and commercial vehicles that travel at speeds of 25 miles per hour and less on state roads.

A campaign originally sponsored by the Mississippi Farm Bureau, to have the now available triangular or shield shaped signs placed on such vehicles, has been endorsed by the Mississippi Highway Patrol and Mississippi Safety Council.

Last year an average of five and a half fatalities were recorded per county in Mississippi through rural traffic accidents.

the three Barron children,

were playing in the stables

when one of the horses began

to paw the ground. Noticing a

yellow streak in the freshly

Members of the Barron

family no longer live in this

area, but Earl Ramond of Bay

Barrons, agrees with Mrs.

Carmichael's account.

"Whether or not there is gold

"The Barrons didn't tell many

Ramond.

Recently Mrs. Carmichael

from Mr. and Mrs. David Small-

they did uncover several objects

blades.

## Florida food chain buys first Bay store

"Although we are not planning any expansion in the near future, the demand for food is increasing," said H.H. Singleton, District Supervisor for L.I. General Food Stores, Inc., of Tampa, Fla., new owners of the former Comp-Pak Food Store on US-90.

Changing hands at the end of June, the store was sold by former owner Frank Corso to the food chain for an undisclosed amount. Corso retained all real estate holdings and L.I. General purchased the business, stock and equipment.

"We have a long lease," said Singleton, "as we intend to be here for a long time."

Stressing that emphasis was being given to purchasing buying and selling Mississippi manufactured wares, Singleton also revealed his chain was in-

terested in further store purchases in the Bay-Waveland area. "We are in the grocery business not the real estate business," said Singleton, indicating future operations would follow the now established pattern of leasing the store and purchasing and operating the business from the present owner.

With 275 stores already in operation throughout the state, the chain recently expanded their holdings inside the City of New Orleans to 23 stores. Frank Corso, Jr., and Leslie Peperdine, previously employed as manager and assistant manager respectively will keep their positions under the new owners.

Interviewed on Friday after details of the transaction were finally made public, Corso stated his intention to return to New Orleans after selling his present residence.

## Christ School names 2 new staff members

Two new teachers will join the faculty of Christ Episcopal Day School this fall, Mrs. C. A. Russ, III, principal, has announced.

Mrs. William E. Leigh of Bay St. Louis will instruct the second grade while Mrs. W.H. Haynie of Mississippi City will handle the third grade. They succeed Mrs. Warren Lassere and Mrs. Robert F. Ladner who have resigned.

Mrs. Leigh taught at Logtown School last year. She and her family moved here from Huntsville, Ala., and he is employed at Mississippi Test Facility, Mrs. Haynie was in the Jackson school system last year and her husband is with a book firm on the coast.

A limited number of registrations are now being accepted for the fall term which opens Tuesday, Sept. 7. The school closed the last session with 220 pupils and expects about 230 this year.

Returning to the faculty will be Mrs. H.A. Torgersen, nursery; Mrs. L.R. Stealing, kindergarten; Mrs. Trumb, first grade; Mrs. John Stone, fourth; George S. Demopoulos, fifth; Lambert Boyd, Jr., sixth; Peter Psikogiorgis, seventh; Mrs. G.T. Stanton, Jr., eighth; Mrs. C.R. Johnson, French, and Mrs. Donald Coffey, physical education. Mrs. C.A. Steers, art.

Michael Baker, Jr., Inc., of Jackson, engineers to Hancock County Port and Harbor Commission, are among sponsors who have agreed to continue giving financial support to statewide Merit Community Program.

## Missile Pizzas, 1-hour cleaning due on US 90

A pizza shop and one-hour cleaners will occupy the 50x50 concrete block building on U.S. 90 north service rd just west of the Wehr-Russell sub-division, J.B. Burrow, owner of the building, disclosed yesterday.

He said leases have been signed with Steve Karas who will operate the Missile Pizza Shop, and Carl Wright, formerly of Gulfport, who will have Wright-Way Cleaners.

Beach's school budget is \$577,930 while Pass Christian's is \$570,000.

Doubts cited ...  
(Cont. from Page 1.)  
Beach Supervisor H.G. Dean, who moved for the bond issue last week, maintained a new building is essential, rather than spend money on renovating the present Courthouse. He observed that voters have the right to petition on the question. Hubbard replied he did not like the petition method on bond issues, recalling he had gone that route on financing beat road improvements after an election failed and had been widely criticized.

The matter was finally left with no motion to reconsider the question and the board formally adjourned for the month.

Work started Monday at Blue Meadow Road and U.S. 90 on installation of a four-inch line to serve the new high school, Cherry and Adams of Ocean Springs was successful bidder on this work at 76 cents a foot to install with the city buying the material. This gas line will tie in with one placed about two years ago on Washington Street near Old Spanish Trail. Estimated cost if \$28,000. It will serve customers along its route including Drink Water, Green Meadow and Blue Meadow Roads and the new Wehr-Russell sub-division as well as the new school.

## GE summer jobs

## 200 work at MTO

Approximately 200 university, college and high school teachers and students from throughout the United States are doing essential tasks in 13 types of jobs at Mississippi Test Facility this summer as temporary employees of General Electric Co.'s Mississippi Test Support Operation.

### A & I barrier

(Cont. from Page 1.)  
been approved and the supervisors recalled implications from the spring and summer of 1964 that the NASA supported regional planning commission would be favored over that of Hancock alone.

Bisso advised them, however, that regional planning aid has not been forthcoming either. His firm was retained as consultant by the regional commission which embraces Hancock, Harrison and Pearl River counties and St. Tammany, La., Parish. He reported the A&I board told him in this instance Hancock was holding things up because it would not earmark its quota of funds. Hancock supervisors voted June 7 to levy .25 mill in the next fiscal year for this purpose and were assured that was soon enough.

The New Orleans consultant noted he had prepared applications also for Gulfport, Biloxi and Harrison County and submitted them along with or shortly after that of Hancock and said he was inclined to believe E. Robert Daley, A&I board official who handles this phase, doesn't want any planning in Mississippi. "The A&I board are the commissioners of Mississippi," he complained.

Beat 1 Supervisor H.G. Dean suggested "we forget about the federal government 'cause they're so poor and dig up the money ourselves and go ahead." He asked Bisso to consider a lesser fee on that basis.

Bisso suggested the board get in touch with Daley about the aid application, try to get the state board of health to do a stiffer job in sanitation enforcement on trailer parks and indicated he would consider a limited agreement for land use planning with local funds.

R.G. Hubbard, Jr., board president, noted that the supervisors a week ago approved a \$335 monthly allocation from the health and sick fund for an assistant to county sanitarian Wayne Allison.

### Bakery ...

(Cont. from Page 1.)  
baking area had been fireproofed when Kachler acquired the shop, vulnerability of the roof was the main problem. Firemen theorized the fire started over one of the main ovens.

The late Robert Perry, who studied to become an engineer, returned to Bay St. Louis 50 years ago and helped crews build the bakery. He died in the flu epidemic of 1918 and his widow and daughter, Mrs. Charles Banderet of Citizen Street, operated it for the next 11 years. They sold it to his brother, Emile Perry, who a few years later sold it to Mr. Vassalli who had been a "hopper" there as a child. The Vassalli family continued in ownership until shortly after his death. When Kachler acquired the property he changed the name from Sanitary Bakery.

## Cigarette shop brings charges

Two boys were apprehended by Bay St. Louis police last Wednesday, and charged with the theft of 12 to 15 packs of cigarettes from a cigarette machine.

Wayne Green, 19, of Clermont Harbor, and Leonard Thompson, 18, of El Paso, Tex., are awaiting a preliminary hearing by Justice of the Peace Nolan Ladner, according to Chief Ladham Garriga.

Garriga said the youths were observed breaking into the machine at Deporan's Landmark on Union Street, at about 12:30 a.m. by the owner from his home across the street.

Patrolmen Billy Carver and Julius Weber caught the pair a few blocks from the Laundromat and recovered the cigarettes.

No arrest were made Saturday when Louise Lynn Berry, 17, operating a motor cycle collided with a pickup truck driven by Oren Seal of Lake Shore at the Dunbar and St. Francis intersection at 12:30 p.m.

Clint Berry, 13, a passenger on the motor cycle was taken to the General Hospital for treatment of lacerations and bruises to the legs. According to Chief Garriga, who investigated the accident, there was no property damage.

## Waveland suffers rash of robberies

Waveland residents of the Nicholson Avenue and Woodlawn Drive districts have experienced five robberies in the last five weeks with the home of Mr. and Mrs. W. Flinn, weekenders from New Orleans, being the latest victim.

Judging from the method of operation two separate groups of thieves are believed involved. Area police have several clues and are actively investigating the crimes.

Pearlington in the vicinity of the proposed school. He challenged the school men to name anyone who had displayed more interest in the county schools and contended that board has had \$110,000 in the federal county depository for three years on the Logtown School which it could have used to start on the relocation at Pearlington. Or, he suggested, it could have been invested to bring in some interest.

There is nothing to stop MTF officials from closing the Logtown School whenever they want, he continued, saying the schools should long ago have made provision for that threat. Ladner replied that arrangements have been made for its use until the Pearlington building is ready. The bond issue for the program was not approved until May and the architect expects to have plans ready to take construction bids in September, Ladner noted. Blalock conceded that Dean's complaints of moving too slowly in the past might have merit but contended the board was acting now at an "advisable" rate to secure a good program.

Others making the Natchez finals were: Susan Ketchum, Donna Byrne, June Porter, Nancy McDonald, Laura Ketchum and Susie Anderson, Mike Mayers, Stephen Byrne, Bill Ketchum, Mike Cardin, Kirk

Stephenson and Hansen Koch. The boys relay team of Hansen Koch, Stephen Byrne, Kirk Stephenson and Mike Mayers, placed third in the 18-14 age class.

## Waveland awarded premium rate cut

Fire insurance rates in Waveland dropped by eight per cent recently after Mississippi State Rating Bureau representatives examined new fire fighting equipment and studied freshly adopted building codes.

Previously listed as 10th class, the highest fire rating category, the town has now been given a ninth class rating. This will mean a savings of eight per cent on the average policy. Local insurance agencies point out, however, that the reduction will not be noticeable to individual policy holders due to an increase in fire insurance rates throughout the state. This 15.6 per cent increase, ordered by the Mississippi Insurance Commission, was made necessary because of the unfavorable experience of member and subscribing companies for the five year period, 1950-1954, according to F. Julian Carroll, manager of the rating bureau.

Under the increased state ratings, dwelling premiums will rise 20 per cent, farm property 25 per cent and commercial buildings 8 per cent.

Bay St. Louis falls into both the ninth and tenth classes of premium ratings with rates now generally higher than those
